## North Carolina Estimates from the Current Population Survey

Based on a sample of 1,200 to 2,500 households each March. Represents only the civilian, non-institutional population of the state. These data are not comparable with decennial census statistics. All data are given in thousands except percentages. Parts may not add to totals due to rounding. Percentages were calculated from unrounded estimates. See glossary for definitions.

## **Household Estimates**

TOTALS (thousands)	2003	2002	2001	2000	1999	1998	1997
Total households	3,305	3,218	2,993	2,947	2,931	2,891	2,826
